

Mentoring for ESD-Leadership 2018

Project: Placing ESD into teacher pre-service training in Germany and setting up cooperation with Kenyan educational organizations for exchange projects among teachers

OBJECTIVES

- Raising awareness among teachers on global issues and how they can include them in teaching contents
- Teachers becoming ESD multipliers
- Establishing profound cooperation with Kenyan NGOs dealing with ESD to facilitate exchange between the countries

MAIN ACTIVITIES

- Information events on ESD with complementing workshops organized for all prospective teachers at all 12 teacher training seminars in the state of Saxony, Germany
- Information on the concept, on the ongoing activities and existing materials provided
- Meetings with the teacher trainers
- Online exchange with the Kenyan organizations on ESD topics and methods used

METHODOLOGICAL APPROACH

Providing information, materials and the setting to try out ESD in formal education environments

IMPACT

Who & how many people will be reached

- All teachers of 12 teacher training seminars in Saxony
- Teacher trainers in Saxony
- Kenyan NGOs & teachers

What will change through the project

Future teachers of Saxony will be equipped to integrate ESD into their teaching and get access to an international network for further exchange on ESD

Project Responsible

Mara Kayser
